Disaster Recovery Services (Unit Rate in Rs.) (excluding taxes)								
241	DR as a service to meet RTO and RPO (includes cost of replication, connectivity between DC & DR and any other requirement to get functional DR) Applicable when the Client is taking both DC and DR from the Cloud Service Provider. The pricing below is for the DR environment in cloud while the primary environment is functional. In case a DR is declared and the DR is scaled-up to become the new functional environment within the RPO/RTO, the Supplier will be paid separately for the resources provisioned as per the unit pricing of VMs, storage and any other service for that duration.
